

Appendix 12 – Clinical Codes in Canning Tool for the APCC Indicators

Coronary Heart Disease Clinical Codes

CHD Terms	Clinical Program
Acute coronary insufficiency	Medical Director
Acute coronary syndrome	Medical Director
Acute myocardial infarction	Medical Director
AMI (Acute Myocardial Infarction)	Medical Director
Angina	Medical Director
Angina pectoris	Medical Director
Angina pectoris – Prinzmetal	Medical Director
Angina pectoris – unstable	Medical Director
Angioplasty – coronary	Medical Director
Angioplasty – coronary (with stent)	Medical Director
Anterior myocardial infarct	Medical Director
Anterolateral myocardial infarct	Medical Director
Atherosclerotic heart disease	Medical Director
Balloon coronary angioplasty	Medical Director
Blockage Coronary Artery	Medical Director
Bypass – coronary	Medical Director
CABG (Coronary Artery Bypass Graft)	Medical Director
Coronary Angiography and Stent	Medical Director
Coronary artery balloon angioplasty	Medical Director
Coronary artery bypass graft	Medical Director
Coronary artery disease	Medical Director
Coronary artery disease – Rehabilitation	Medical Director
Coronary artery endarterectomy	Medical Director
Coronary artery spasm	Medical Director
Coronary artery stent	Medical Director
Coronary artery surgery	Medical Director
Coronary heart disease	Medical Director
Coronary insufficiency	Medical Director
Coronary Occlusion	Medical Director
Heart attack	Medical Director
IHD (Ischaemic Heart Disease)	Medical Director
Inferior myocardial infarction	Medical Director
Ischaemic heart disease	Medical Director
Myocardial Damage	Medical Director
Myocardial infarction	Medical Director
Myocardial infarction – anterior	Medical Director
Myocardial infarction – anterolateral	Medical Director
Myocardial infarction – inferior	Medical Director
Myocardial infarction – posterior	Medical Director
Myocardial infarction – subendocardial	Medical Director
Myocardial infarction – superior	Medical Director
Myocardial Infarction – with ST elevation	Medical Director
Myocardial Infarction – without ST elevation	Medical Director
Myocardial insufficiency	Medical Director
NSTEMI (Non-ST-Elevation Myocardial Infarction)	Medical Director
Occlusion – Coronary Artery	Medical Director

SEA-GP (Brisbane) Database Health Check Coding Resource

PCTA	Medical Director
Percutaneous transluminal angioplasty	Medical Director
Posterior myocardial infarct	Medical Director
Preinfarction syndrome	Medical Director
Prinzmetal angina	Medical Director
STEMI (ST-Elevation Myocardial Infarction)	Medical Director
Stent – coronary artery	Medical Director
Subendocardial myocardial infarct	Medical Director
Superior myocardial infarct	Medical Director
Surgery – Coronary artery	Medical Director
Surgery – Coronary artery balloon angioplasty	Medical Director
Surgery – Coronary artery bypass graft	Medical Director
Surgery - Coronary artery endarterectomy	Medical Director
Surgery - Coronary artery stent	Medical Director
Unstable Angina	Medical Director
Unstable Angina - High risk	Medical Director
Unstable Angina - Low risk	Medical Director
Unstable Angina - Moderate risk	Medical Director
Variant angina	Medical Director
Acute coronary insufficiency	Best Practice
Acute myocardial infarction	Best Practice
AMI	Best Practice
Angina	Best Practice
Angina pectoris	Best Practice
Angina, unstable	Best Practice
Angioplasty, coronary	Best Practice
Anterior myocardial infarct	Best Practice
Anterolateral myocardial infarct	Best Practice
Balloon coronary angioplasty	Best Practice
CABG	Best Practice
Coronary angiography and stent	Best Practice
Coronary angioplasty with stent	Best Practice
Coronary artery bypass graft	Best Practice
Coronary artery disease	Best Practice
Coronary artery endarterectomy	Best Practice
Coronary artery spasm	Best Practice
Coronary artery stent	Best Practice
Coronary endarterectomy	Best Practice
Coronary insufficiency	Best Practice
Coronary occlusion	Best Practice
Heart attack	Best Practice
IHD	Best Practice
Inferior myocardial infarction	Best Practice
Ischaemic heart disease	Best Practice
MI	Best Practice
Myocardial infarction	Best Practice
Myocardial infarction, anterior	Best Practice
Myocardial infarction, anterolateral	Best Practice
Myocardial infarction, inferior	Best Practice

SEA-GP (Brisbane) Database Health Check Coding Resource

Myocardial infarction, posterior	Best Practice
Myocardial infarction, subendocardial	Best Practice
Myocardial infarction, superior	Best Practice
Non ST elevation myocardial infarction	Best Practice
NSTEMI	Best Practice
Occlusion, Coronary artery	Best Practice
Posterior myocardial infarct	Best Practice
Preinfarction syndrome	Best Practice
Stent, coronary artery	Best Practice
Subendocardial infarct	Best Practice
Prinzmetal angina	Best Practice
Subendocardial myocardial infarct	Best Practice
Superior myocardial infarct	Best Practice
Unstable angina	Best Practice
Variant angina	Best Practice

Cardiovascular Disease (CVD)

Cardiovascular disease includes the CHD terms (listed above) in addition to the below disease terms

Hypertension terms

	Clinical Program
Blood Pressure Labile	Medical Director
BP Labile	Medical Director
BP Unstable	Medical Director
Essential hypertension	Medical Director
HBP	Medical Director
High blood pressure	Medical Director
HT (Hypertension)	Medical Director
Hypertension	Medical Director
Hypertension - Controlled	Medical Director
Hypertension - Isolated Systolic	Medical Director
Hypertension - Labile	Medical Director
Hypertension - Life style management	Medical Director
Hypertension - Malignant	Medical Director
Hypertension - Renovascular	Medical Director
Hypertension - Unstable	Medical Director
Labile Blood Pressure	Medical Director
Labile BP	Medical Director
Labile Hypertension	Medical Director
Malignant hypertension	Medical Director
Primary hypertension	Medical Director
Renal Hypertension	Medical Director
Renovascular Hypertension	Medical Director
Severe refractory hypertension	Medical Director

Essential hypertension	Best Practice
High blood pressure	Best Practice
Hypertension	Best Practice
Hypertension, malignant	Best Practice
Hypertension, renovascular	Best Practice
Isolated systolic hypertension	Best Practice

SEA-GP (Brisbane) Database Health Check Coding Resource

Labile Blood Pressure	Best Practice
Labile BP	Best Practice
Malignant hypertension	Best Practice
Renal hypertension	Best Practice
Renovascular hypertension	Best Practice
Severe refractory hypertension	Best Practice
Heart failure terms	Clinical Program
Cardiac failure	Medical Director
CCF	Medical Director
Congestive Cardiac Failure	Medical Director
Congestive Heart Failure	Medical Director
Cor pulmonale	Medical Director
Heart failure	Medical Director
Heart failure - Biventricular	Medical Director
Heart failure - High output	Medical Director
Heart failure - Left	Medical Director
Heart failure - Right	Medical Director
High output cardiac failure	Medical Director
High output heart failure	Medical Director
Hypertensive heart failure	Medical Director
Left ventricular failure	Medical Director
LHF (Left heart failure)	Medical Director
LVF (Left ventricular failure)	Medical Director
Pulmonary oedema	Medical Director
RHF (Right heart failure)	Medical Director
Right ventricular failure	Medical Director
RVF (Right ventricular failure)	Medical Director
Left Ventricular Dysfunction	Medical Director (NPS only)
Ventricular Dysfunction – Left (NPS only)	Medical Director (NPS only)
Acute cardiac failure	Best Practice
Acute heart failure	Best Practice
Biventricular heart failure	Best Practice
Cardiac failure	Best Practice
Cardiac failure, acute	Best Practice
CCF	Best Practice
Congestive cardiac failure	Best Practice
Congestive heart failure	Best Practice
Cor pulmonale	Best Practice
Heart failure	Best Practice
Heart failure, acute	Best Practice
Heart failure, high output	Best Practice
Heart failure, left	Best Practice
High output cardiac failure	Best Practice
High output heart failure	Best Practice
Hypertensive heart failure	Best Practice
Left heart failure	Best Practice
Left Ventricular Failure	Best Practice
LHF	Best Practice

SEA-GP (Brisbane) Database Health Check Coding Resource

LVF	Best Practice
RHF	Best Practice
Right heart failure	Best Practice
Right ventricular failure	Best Practice
RVF	Best Practice

Stroke terms

Cerebral Haemorrhage	Medical Director
Cerebrovascular Accident	Medical Director
CVA (Cerebrovascular Accident)	Medical Director
Haemorrhage - intracerebral	Medical Director
Haemorrhagic CVA	Medical Director
Haemorrhagic Stroke	Medical Director
Intracerebral bleed	Medical Director
Intracerebral haemorrhage	Medical Director
Ischaemic Stroke	Medical Director
Lacunar Stroke	Medical Director
Migranous Stroke	Medical Director
Stroke	Medical Director
Stroke - Haemorrhagic	Medical Director
Stroke - Ischaemic	Medical Director
Stroke - Lacunar	Medical Director
Stroke - Migranous	Medical Director
Stroke - Thrombotic	Medical Director
Thrombotic – Stroke	Medical Director
Haemorrhage – subarachnoid	Medical Director
Subarachnoid bleed	Medical Director
Subarachnoid haemorrhage	Medical Director
Cerebral TIA	Medical Director
Transient ischaemic attack	Medical Director
Cerebral transient ischaemia	Medical Director
Cerebral transient ischaemic attacks	Medical Director
Arterial embolism – minor	Medical Director
TIA (Transient Ischaemic Attack)	Medical Director

Clinical Program

Cerebral haemorrhage	Best Practice
Cerebral infarction	Best Practice
Cerebrovascular Accident	Best Practice
CVA	Best Practice
Haemorrhage, intracerebral	Best Practice
Haemorrhagic CVA	Best Practice
Haemorrhagic stroke	Best Practice
Intracerebral bleed	Best Practice
Intracerebral haemorrhage	Best Practice
Intracranial haemorrhage	Best Practice
Ischaemic stroke	Best Practice
Lacunar infarct	Best Practice
Lacunar Stroke	Best Practice
Migrainous stroke	Best Practice
Stroke	Best Practice

SEA-GP (Brisbane) Database Health Check Coding Resource

Stroke, haemorrhagic	Best Practice
Stroke, ischaemic	Best Practice
Stroke, lacunar	Best Practice
Stroke, migrainous	Best Practice
Stroke, thrombotic	Best Practice
Thrombotic stroke	Best Practice

Peripheral Vascular Disease terms

Peripheral Vascular Disease
Arteriosclerosis obliterans
PVD

Peripheral vascular disease
Peripheral vascular disease, diabetic
PVD
Arteriosclerosis obliterans

Carotid Stenosis terms

Carotid Stenosis

Carotid Stenosis
Carotid Artery stent
Stent, carotid artery

Renal Artery Stenosis terms

Stenosis – Renal artery
Renal artery stenosis

Renal artery stenosis
Stenosis of renal artery
Renal artery stent
Stent, renal aretery

Chronic Renal Failure

Chronic Renal Failure terms

Chronic Renal Failure
Dialysis - haemodialysis
Haemodialysis
Hemodialysis
Impairment - Renal
Kidney failure
Kidney failure - chronic
Kidney Impairment
Renal damage
Renal dialysis
Renal failure
Renal Impairment
Renal Insufficiency – Chronic
Uraemia
Kidney Disease – Chronic – Stage 1 - 5

SEA-GP (Brisbane) Database Health Check Coding Resource

Renal Disease – Chronic – Stage 1 - 5	Medical Director
Chronic Kidney Disease - Stage 1 - 5	Medical Director
CKD (Chronic Kidney Disease) – Stage 1 - 5	Medical Director

Chronic renal failure	Best Practice
Haemodialysis	Best Practice
Kidney failure, chronic	Best Practice
Kidney failure	Best Practice
Renal dialysis	Best Practice
Renal failure	Best Practice
Renal failure, chronic	Best Practice
Uraemia	Best Practice
Dialysis	Best Practice
Renal impairment	Best Practice
Chronic Kidney Disease,	Best Practice
Chronic Kidney Disease, Stage 1-5	Best Practice

Diabetes

Type 2

Diabetes Mellitus - NIDDM	Clinical Program Medical Director
Diabetes Mellitus - Type II	Medical Director
NIDDM	Medical Director
Non insulin dependent diabetes mellitus	Medical Director

Diabetes Mellitus, NIDDM	Best Practice
Diabetes Mellitus, Type 2	Best Practice
NIDDM	Best Practice
Non insulin dependent Diabetes Mellitus	Best Practice
Type 2 Diabetes Mellitus	Best Practice

Type 1

Diabetes Mellitus - IDDM	Clinical Program Medical Director
Diabetes Mellitus - Type I	Medical Director
IDDM (Insulin dependent diabetes mellitus)	Medical Director
Insulin dependent diabetes mellitus	Medical Director
Juvenile Onset Diabetes	Medical Director

Diabetes mellitus, IDDM	Best Practice
Diabetes mellitus, Type 1	Best Practice
IDDM	Best Practice
Insulin dependent Diabetes mellitus	Best Practice
Juvenile onset Diabetes mellitus	Best Practice
Type 1 Diabetes mellitus	Best Practice

Undefined diabetic

Diabetes	Clinical Program Medical Director
Diabetes - controlled	Medical Director
Diabetes - Unstable	Medical Director
Diabetes Mellitus	Medical Director
Unstable Diabetes	Medical Director

SEA-GP (Brisbane) Database Health Check Coding Resource

Diabetes with Vascular Changes	Medical Director
Arteritis – Diabetes Mellitus	Medical Director
Diabetic Endarteritis	Medical Director
Diabetic Peripheral Vascular Disease	Medical Director
Diabetic Vasular Disease – Peripheral	Medical Director

Diabetes	Best Practice
Diabetes Mellitus	Best Practice
Diabetic endarteritis	Best Practice
Diabetic peripheral vascular disease	Best Practice
Peripheral vascular disease, diabetic	Best Practice

Chronic Obstructive Pulmonary Disease Terms

COPD terms

	Clinical program
Chronic Airways Limitation	Medical Director
Chronic Bronchitis	Medical Director
Chronic Obstructive Airways Disease	Medical Director
Chronic Obstructive Pulmonary Disease	Medical Director
COAD	Medical Director
COAD – Infective Exacerbation	Medical Director
COAD (Chronic Obstructive Airways Disease)	Medical Director
COPD (Chronic Obstructive Pulmonary Disease)	Medical Director
Emphysema	Medical Director
Emphysema– Infective Exacerbation	Medical Director

Bronchitis, chronic	Best Practice
Chronic bronchitis	Best Practice
Chronic Obstructive Airways Disease	Best Practice
Chronic Obstructive Pulmonary Disease	Best Practice
COAD	Best Practice
COAD, Infective exacerbation	Best Practice
COPD	Best Practice
COPD, Infective exacerbation	Best Practice
Emphysema	Best Practice
Infective exacerbation of COAD	Best Practice
Infective exacerbation of COPD	Best Practice
