Updated Advice to Vaccine Service Providers

Provision of Diphtheria, Tetanus and Pertussis Vaccine

For a time limited period, Queensland Health will be offering adult diphtheria, tetanus and pertussis (dTpa) vaccine to residents living in flood affected areas who:

- Live with a baby less than six months of age;
- OR
- Provide care to a baby less than six months of age.

This is in addition to the current Queensland Government program for parents and may include grandparents, extended family, childcare workers and healthcare workers.

The vaccine can be ordered from the Queensland Health Immunisation Program (QHIP) between 8.00am to 4.30pm Monday to Friday by:

PHONE – (07) 3328 9888

FAX – (07) 3328 9720
