

INFLUENZA VACCINE

ANNUAL SEASONAL FUNDED INFLUENZA PROGRAM 2011

- Your influenza vaccine orders will contain either *Influvac*[®], *Vaxigrip*[®] or *Fluvax*[®] - **all three influenza vaccines can be used for adults** eligible to receive vaccination under the “Annual Seasonal Funded Influenza Program”.
- *Fluvax*[®] is **not** registered for use in children aged less than 6 months and under 5 years of age in 2011. **Do not use *Fluvax*[®] for this age group.**
- *Influvac*[®] or *Vaxigrip*[®] are recommended for use in children **but you do not have to reserve these vaccines only for use in children.** The dosage of *Influvac*[®] or *Vaxigrip*[®] for children from 6 months to less than 3 years of age is 0.25ml (half an adult dose) of either vaccine.
- Pneumovax 23[®] can be ordered when you place your influenza order – provide stock on hand for this vaccine as well as your influenza vaccine stock on hand.
